PROMOTION PROGRAM

The activities carried out under the program are aimed at promoting the entire Polish fashion industry, including the clothing, footwear, leatherware and jewellery sectors, and they mainly include the organization of national information and promotional stands at the industry's largest and most important fairs. By the end of 2022, stands will be organized during 6 events in 5 countries.

At the organized stands, Polish companies from the fashion industry have the opportunity to present their product lines, display advertising films and hold B2B meetings with contractors. In addition, the national stand staff provides visitors with information about the stands of the Polish companies that are exhibited at given fairs.

Micro, small and medium entrepreneurs may receive partial funding of the costs related to participation in the program under sub-measure 3.3.3 "Support for SMEs in promoting product brands – Go to Brand" Smart Growth Operational Programme. Support for entrepreneurs is provided by the Polish Agency for Enterprise Development.

The program is implemented under sub-measure 3.3.2 "Promotion of the economy based on Polish product brands – Polish Economy Brand" Smart Growth Operational Programme.

The program for the promotion of the Polish Fashion industry was prepared by the Ministry of Economic Development, Labour and Technology of the Republic of Poland.
